Établissement public national  
créé par la loi n°93-444 du 19 avril 1993

Cette recherche informatisée a été effectuée sur les bases de données de noms de domaine. Ces bases sont régulièrement mises à jour.

**Le rapport est composé de :**

1. Une recherche de noms de domaine issue des bases de données .FR et .EU (ccTLD) ;
2. Une recherche de noms de domaine issue de la base de données des noms de domaine génériques (gTLD + nouveaux gTLDs).

Cette recherche ne prend pas en compte les caractères accentués ou caractères spéciaux.

Cette recherche vous permet de voir si le nom de domaine existe déjà, identiquement ou avec quelques variations. Cette recherche sur les variations n'est possible que pour certains types de noms de domaine.

Le nombre maximum de résultats fournis est plafonné à environ 150.

Les noms de domaine mentionnés dans ce rapport comme étant enregistrés, le sont au moment où ce rapport a été établi. Il est possible que le statut du nom de domaine change entre le moment où le rapport est généré et le moment où vous le recevez.

Seuls les noms de domaine enregistrés sont indiqués. Les noms de domaine en cours de validation auprès du registre concerné ne sont pas mentionnés.

En raison des nouvelles lois concernant la protection des données, les registres de noms de domaine réduisent de plus en plus l'accès aux informations concernant les noms de domaine. Nous ne pouvons donc pas garantir l'exhaustivité des résultats.

**Terms of Use: Identity Digital Inc. provides this Whois service for information purposes, and to assist persons in obtaining information about or related to a domain name registration record. Identity Digital does not guarantee its accuracy. Users accessing the Identity Digital Whois service agree to use the data only for lawful purposes, and under no circumstances may this data be used to: a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the registrar's own existing customers and b) enable high volume, automated, electronic processes that send queries or data to the systems of Identity Digital or any ICANN-accredited registrar, except as reasonably necessary to register domain names or modify existing registrations. When using the Identity Digital Whois service, please consider the following: The Whois service is not a replacement for standard EPP commands to the SRS service. Whois is not considered authoritative for registered domain objects. The Whois service may be scheduled for downtime during production or OT&E maintenance periods. Queries to the Whois services are throttled. If too many queries are received from a single IP address within a specified time, the service will begin to reject further queries for a period of time to prevent disruption of Whois service access. Abuse of the Whois system through data mining is mitigated by detecting and limiting bulk query access from single sources. Where applicable, the presence of a [Non-Public Data] tag indicates that such data is not made publicly available due to applicable data privacy laws or requirements. Should you wish to contact the registrant, please refer to the Whois records available through the registrar URL listed above. Access to non-public data may be provided, upon request, where it can be reasonably confirmed that the requester holds a specific legitimate interest and a proper legal basis for accessing the withheld data. Access to this data can be requested by submitting a request via the form found at <https://www.identity.digital/about/policies/whois-layered-access/> Identity Digital Inc. reserves the right to modify these terms at any time. **Terms of Use: Identity Digital Inc. provides this Whois service for information purposes, and to assist persons in obtaining information about or related to a domain name registration record. Identity Digital does not guarantee its accuracy. Users accessing the Identity Digital Whois service agree to use the data only for lawful purposes, and under no circumstances may this data be used to: a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the registrar's own existing customers and b) enable high volume, automated, electronic processes that send queries or data to the systems of Identity Digital or any ICANN-accredited registrar, except as reasonably necessary to register domain names or modify existing registrations. When using the Identity Digital Whois service, please consider the following: The Whois service is not a replacement for standard EPP commands to the SRS service. Whois is not considered authoritative for registered domain objects. The Whois service may be scheduled for downtime during production or OT&E maintenance periods. Queries to the Whois services are throttled. If too many queries are received from a single IP address within a specified time, the service will begin to reject further queries for a period of time to prevent disruption of Whois service access. Abuse of the Whois system through data mining is mitigated by detecting and limiting bulk query access from single sources. Where applicable, the presence of a [Non-Public Data] tag indicates that such data is not made publicly available due to applicable data privacy laws or requirements. Should you wish to contact the registrant, please refer to the Whois records available through the registrar URL listed above. Access to non-public data may be provided, upon request, where it can be reasonably confirmed that the requester holds a specific legitimate interest and a proper legal basis for accessing the withheld data. Access to this data can be requested by submitting a request via the form found at <https://www.identity.digital/about/policies/whois-layered-access/> Identity Digital Inc. reserves the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.**
